Cal OES INLAND REGION

Stanislaus River Erosion Incident, San Joaquin County

On 12/13/19 at 1503 hours, the California State Warning Center was notified by the Department of Water Resources Flood Operations Center (FOC) of significant erosion occurring on a bank on the Stanislaus River.

- · No flooding is occurring and there is no emergency at this time.
- The site is on the right bank of the Stanislaus River at approximately Levee Mile 2.4.
- Reclamation District (RD) Engineers believe the damage was caused by a falling tree. The tree caused the water to swirl causing the erosion. They are concerned about other trees falling into the river and causing more issues.
- The FOC participated in a conference call with staff from RD 2064, Central Valley Flood Protection Board staff, DOE, and US Army Corps of Engineers to discuss removal of a large tree adjacent to the erosion site. The tree is not within the scope of the emergency work and RD 2064 and U.S. Army Corps of Engineers (USACE) are pursuing other methods to remove the tree.
- USACE will attempt to trim the tree on 12/20/19. The contractor will then attempt to remove the tree from the channel. Tree removal work will be paid for by RD 2064.
- The contractor has taken delivery of 2200 tons of rock as of 12/19/19 and has already armored approximately two thirds of the eroded bank. Work is expected to be complete on 12/21/19 with demobilization scheduled for 12/23/19.

Activations

- Flood Operations Center (FOC) is activated at their lowest level.
 - Operational Period: 0800 hours to 1700 hours during the week and Duty Officer status overnight and over the weekend.

Proclamations

- RD 2064 proclaimed a local emergency on 12/12/19.
- The San Joaquin County Director of Emergency Services proclaimed a local emergency on 12/13/19 in support of RD 2064.
 - San Joaquin County Board of Supervisors ratified the Proclamation on 12/17/19.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Widespread precipitation is anticipated this weekend, spreading from northwest to southeast throughout the day Saturday.
 - The heaviest precipitation will be focused north of I-80, especially over the Coastal Range, western Shasta County and northern Sacramento Valley.
 - · Heaviest rain on Saturday across Northwest California.

SOUTHERN CALIFORNIA

· No significant weather of concern.

WEATHER KEY POINTS 12/19/19 - 12/25/19

Thursday

- Moderate to heavy rainfall just for the northwest corner of the state today, but no flooding is expected.
- Portions of Siskiyou County will have wet snowfall accumulations through early afternoon today creating difficult travel on slippery roads with limited visibility

Friday

- · Gusty winds expected in northwest CA
- Dry conditions except for a chance for showers in the northern coastal areas with no significant impacts

Saturday-Christmas Day

- · Beneficial rain and mountain snow returns to northern CA Saturday
 - · Potential for minor travel impacts.
 - Locally heavy rain is possible but exact locations uncertain at this time.
 - Minor flooding possible in northwest CA
- Precipitation to reach the central coast and southern CA Saturday night into Sunday
 - · Hazardous mountain travel expected for the weekend due to wind and snow
 - Snow levels 4000-4500 feet, with heaviest Sierra snowfall expected Sunday
- Unsettled conditions continue early next week with chances for valley rains and mountain snowfall

Thursday/ Thursday Night

Friday/ Friday Night

Saturday/ Saturday Night

WEATHER OUTLOOK 12/24/19 - 01/01/20

6-10 Day Outlook (December 24 - December 28)

Temperatures

• Below normal temperatures favored, except a slight leaning of the odds toward above normal for the lower CO River valley.

Precipitation

• Above normal precipitation favored statewide, with greatest confidence in the south.

8-14 Day Outlook (December 26 - January 1)

Temperatures

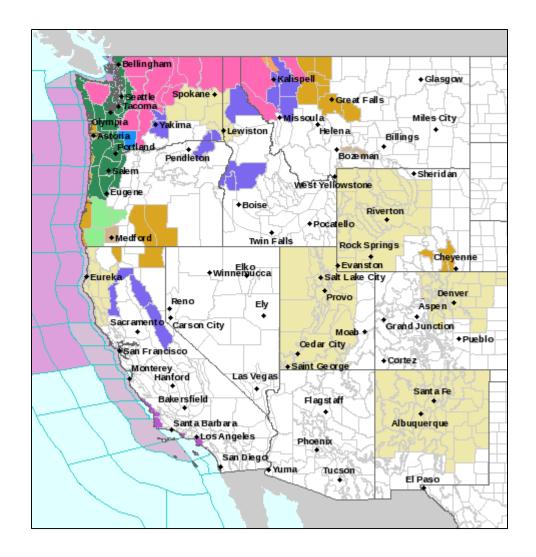

Below normal temperatures favored statewide

Precipitation

· Above normal precipitation favored for southern CA, with near normal precipitation expected across much of northern CA

Cal OES MISSION TASKING

Cal OES Missions

• 2019-Southern-8315: Cal OES Recovery requesting a mission task to CAL FIRE to serve as the lead for an activation of a Watershed Emergency Response Team (WERT) for Santa Barbara for immediate geological and hydrological evaluation of the burn area affected by the Cave Fire. WERT is finalizing report, tentative demobilization is expected to be 12/19/19. MISSION ONGOING

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
